# Smart Calculator v2.0

Smart calculator is a software created to calculate mathematical expressions, build graphics and to calculate credits.

Smart calculator have a simple user interface.

You can enter your expression using buttons or simply enter it in the text field.

Calculator

Calculator | Credit

Graph

sin(x)

*	(	)	AC	<<	log	ln
÷	7	8	9	^	sqrt	mod
+	4	5	6	cos	sin	tan
-	1	2	3	acos	asin	atan
=	.	0		x	Pi	e

GRAPH

To see graphic of the expression you enter switch to the "Graph" tab
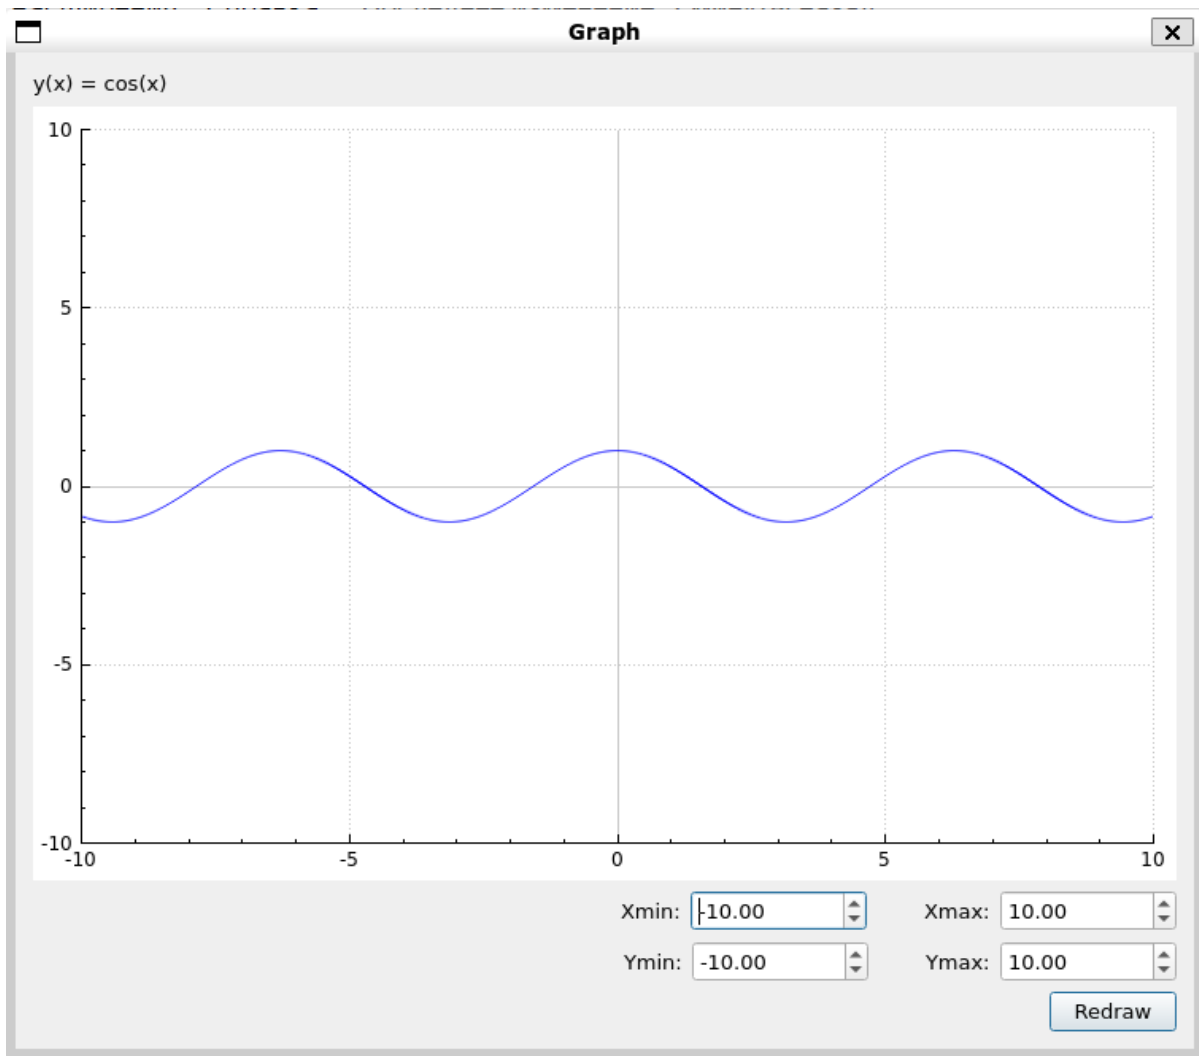

Credit

You also can calculate any credit using a credit calculator. To enter a credit calculator you should open the "Credit" tab. To calculate your credit just enter your data and press calculate.

Calculator

Calculator | **Credit**

Credit summ: `1000`

Percent: `100.00`

Months: `100`

○ Annuity payments

● Differentiated payments

[Calculate]

	Date:	Payment:
1	17.07.2022	93.3333
2	17.08.2022	92.5
3	17.09.2022	91.6667
4	17.10.2022	90.8333
5	17.11.2022	90
6	17.12.2022	89.1667
7	17.01.2023	88.3333

Date of borrowing

	July	**2022**					
	Mon	Tue	Wed	Thu	Fri	Sat	Sun
26	27	28	29	30	1	2	3
27	4	5	6	7	8	9	10
28	11	12	13	14	15	16	17
29	18	19	20	21	22	23	24
30	25	26	27	28	29	30	31
31	1	2	3	4	5	6	7

Overpayment on credit: 4208.33

Total payment:5208.33
